Dear Bob,

Thank you for all that you've done in helping me advance my career. My experience in working with you was positive and refreshing. Never before has a recruiter exhibited equal concern for both the client and candidate until I interacted with you. I particularly appreciated the thought provoking questionnaire and thoroughness of your review of me as a candidate. Not only did you take time with me, but looked out for the best interests of me and the client during the interview and offer process.

Interestingly, one of my references you spoke with expressed impressiveness of her experience. Not only did you ask great questions, but was deliberate, professional, and personable—this was contrary to her encounters with other recruiters.

As a result of this great experience with Bishop Partners, I have referred you to several professionals. In the future, I won't hesitate to call on you—as a client or candidate!

Best regards,
