

To those of you looking for results...

I want to throw my full support and enthusiastic endorsement of Bob Bishop in terms of his ability to deliver talent that hits the mark. Our agency, Group360 Communications, was engaged in a nation-wide search for a new business developer and had met with many potential candidates. While we interviewed many, we had met with very few who made us sit up and take notice.

Leave it to Bob to post a message on every voice device imaginable notifying us that he had our candidate. As you might expect we had been through this with other search firms and had heard the same thing. This was the first time Bob had called with anyone so we were skeptical. Bob insisted that the person he was recommending was a perfect fit, the perfect mind set, the perfect one.

There are very few moments of clarity in searches for candidates and Bob brought our search to that moment. We met with his candidate and without hesitation said yes. That is the perfect end to a long and taxing search.

Bob is all about quality over quantity and man it shows.

Thanks Bob, I will call you first next time.

Best Regards,

Grady Phelan
Sr. Vice President and General Manager
Group360 Communications
